The Malaysian Timber Council, in its effort to facilitate the local timber industry in sourcing for timber raw materials from off-shore, is organising the second Overseas Suppliers – Malaysian Importers/Manufacturers Exchange Programme on 20 November 2019.

MTC has been playing a fundamental role in assisting the industry in augmenting timber raw materials through several programmes under the Import Assistance Programme, i.e. Direct Sourcing Programme (DSP), Industrial Testing Programme (ITP), Mission Participation Incentive (MPI) and Planting Materials (Seedlings/Plantlets). MTC's inaugural "Overseas Suppliers–Malaysian Importers/Manufacturers Exchange Programme" which was successfully organised on

26 September 2018 had garnered about 40 local importers and manufacturers participating in its B2B programme. MTC has introduced a different approach by inviting overseas suppliers to come and meet with potential buyers from Malaysia who are looking for suppliers of timber raw materials that meet their business needs.

MTC is also pleased to inform that the participants of its Import Assistance Programme i.e. Direct Sourcing Programme (DSP) would be given a special quota of 1,500m³ (i.e. independent of the normal IAP entitlement) if the company confirmed purchases of timber raw materials from the overseas suppliers that participate in this B2B programme held in conjunction with MWE 2019.

MTC is pleased to invite interested industry members to participate in the Programme.
